

AMA Chapter 534

Minutes of the Board Meeting, May 25, 2017

Open:

Meeting was opened at 7:00 pm by President, Bruce Tharpe with all members present except Roger Hebner and Tim Agee. New Field Maintenance Officer Rod Graham was present as a guest.

Reports:

Treasurer: None.

Unfinished Business:

Bruce updated the board on the runway sealing vote. No issues, no complaints, email voting seems to be working as hoped. Bruce also shared a picture of another runway with the club's name on it. Looked good from the air.

Field maintenance issues were discussed.

New Business:

Jerry Stinson would like to put on a season opening event. He has in mind a pot luck and fun fly similar to the season ending event by Jay Strickland. The board expressed their support if Jerry can show that there is interest.

Larry Cogdell announced that the Science Works Aviation Academy has invited us to show our model airplanes at an event Friday June 23 at 11 AM. Larry will send out a "React" about this and other items of interest soon.

Bruce reported on the control line circle progress. This project is now expected to be active by June 2nd.

More field maintenance issues were discussed. Rod Graham will investigate the issues brought to the board's attention and will report on those and other issues at the Membership meeting in June.

Meeting ended at 7:40 pm.
