

## All Scale Contest - May 21-22, 2016

Once again, the legend of Agate Skyways home of the Rogue-Eagles came to pass. We have our airfield located in what is known as the Agate Desert. Technically a desert, we watched all day Saturday while rainstorms virtually surrounded us while not a drop fell on our planes.

The judging is done by Pilot's Choice and the flyer's take their judging role seriously!

Best-of-Show honors went to Scott Hudson for his beautiful Beaver (last week it was on floats!)

**Our CD for this event, John Gaines, has opened the scale competition from just Warbirds to now include Scale airplanes of any stripe and even scale helicopters. With interest now broadened, many local flyers showed up and several formidable ones from Sutherlin, Oregon made the trip South to take many trophies.**

Here we see John with his 1/3 scale Fly-Baby.

John Gaines is a gentleman and that is why he did not enter his amazing scale Grumman Lynx. Look at the detail!

Bob Campbell won a nice plaque for WW I warbirds with his SE5 and *another* award for his completely rebuilt Chipmunk.

Tal came down from Sutherlin and took first place with his Fokker DR1 as well as 3rd place for his beautiful Bipe.

Dale McCuiston with his Giant P-51 Mustang.

Local legend, John Parks, flew his Bell helicopter in the wind and also took a nice 1st with it. John and Larry Myers seem to both be claiming this award winning Japanese Fighter although it is not known if Larry was ever allowed to fly it?

The wind became a factor after lunch and below are the award winners for "Shakiest Take-Offs & Landings". Note that all three planes survived and are still in one piece!

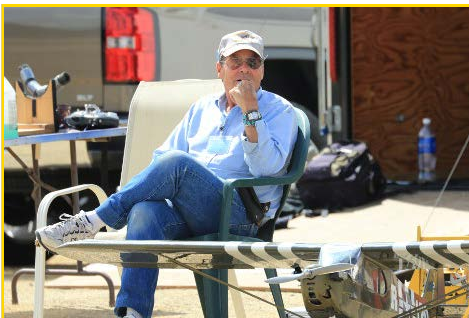

**In no particular order, sights of Rogue-Eagles All Scale Contest.**

Gary Neal and his Army Spotter Plane dealing with a nasty crosswind.

Rick Lindsey's Top Flite Mentor.

A pilotless SE5.

Richard Schwegerl with his very powerful P47!

A very fast Warthog.

Mother and daughter Mentors.

Troubles with Super-Tigers (they did get them both running and had a fine flight).

Lastly, the guys who are always there to help wherever they can...

Ron Dilday (Supervising Dale McCuiston)

Corey Myers (Hoofing airplanes)

Bruce Tharpe (Shooting Videos)

Rich Hume (Photographs)
