

## Potluck Fun-Fly at Agate Field; May 4, 2013

### The Annual Potluck, Fly-In, Swap Meet and Keno FlightMasters Invitational of 2013

The Rogue Eagles hold this event every year in late April or early May with fingers crossed hoping for some good flying weather. This year, Mother-Nature doused us with very pleasant temperatures and perfect blue skies and winds that could only be described as "Devilish". Some hardy souls dared to brave the unpredictable gusts and flew anyway. Taking off and landing in the opposite direction than normal was a must. The general mode of landing was a sort of half power on crab/slip and then hope it does not blow over after landing. In fact, several planes DID blow off the concrete stands during lunch due to the contrary, cantankerous and continuous winds. Below are some of the bravest flyers in the land!

Left to right: Cliff Sands, Martin Sherman and Dale McCuiston.

Running up Cliff's 115mph  
"Double Trouble"!

**Martin Sherman's Astro-Hog.  
Notice the wind sock and the  
direction of the plane.**

**The visiting Keno FlightMasters  
from left to right: Coy Drohman,  
Bill Young, Elliot Fulton, Christy  
Flowers, Don Draskovich and Bob  
Flowers. Their club will host the  
Rogue-Eagles September 14th at  
their fine field at Sportsmans Park  
outside Keno. Mark that date on  
your calendar!**

**The "Last Flight" of a trusted bird.  
Larry Myers' noble Cub  
succumbed to elevator servo  
failure and did not survive.**

**Alan Littlewood shows his  
courage by flying his Dynaflyte  
Chipmunk in the wind. Check out  
the trees in the background.**

**Fred Sargent braves the wind  
with his Ultimate Biplane.**

**This is what was passing for a  
gentle turn in today's windy  
conditions!**

**Clark Wolfe's Goldberg Sukoi sporting a nasty YS120AC swinging a 17X6 prop. This is a large 1/4 scale plane built from a KIT! The trees in the background tell the story.**

**The FlightMasters came down from the mountain ready to FLY! This is Don Draskovich's EDGE 540 being flown by Bill Young.**

**Thanks must go to Jay Strickland and especially his wife in preparing the wonderful hamburgers with all of the fixings. Jay did the cooking honors and all of us appreciate their hard work.**
