

This is a Great Planes 78" wingspan. Construction is fiberglass/balsa. Sale includes airframe, Hitec hs85 servos (rudder, elevator), Hitec hs65 (ailerons), Castle Creations 10amp BEC. and Dynaflyte high start. There are some scratches/cuts in the covering (see picture). The airframe has been modified from original design by eliminating flaps, converting rudder to pull-pull system. I prefer local pick up only. Asking \$150
